FLASH!!!!!!

PATTI WOOD....ALSO KNOWN AS "THE BODY LANGUAGE LADY"

WILL BE ASSESSING BODY LANGUAGE OF STARS DURING THE OSCARS!!!

WHAT ARE THEY REALLY "SAYING"?????

INTERVIEW PATTI FOR HER REACTIONS!!!!!!

If you are seeking [an energetic and people savvy person to interview or quote or have an article written](#), consider Patti Wood.

Patti is often asked to use her body language expertise to assess well-known people in interviews, speeches and photos. Her sessions on First Impressions in Business will give you rich insights you personally can use along with your audience. For example, did you know handshakes were created to check the weapon hand of someone you encountered on the road? And hugs were created to check for hidden swords under Egyptian robes? That licking the lips indicates the person is lying? That rubbing their ear indicates the person is uncomfortable with what they are hearing? Where the feet go, the heart follows. That observing the direction of the speaker's feet when talking to you indicates their level of interest in the conversation.

Please consider Patti as your body language-in-business-communications resources. **Patti will be speaking on conflict resolution methods for the PBS and American Management Association web special April 24 in honor of National Administrative Professionals Weeks.**

Included is Patti Wood's bio for you to review and a second press release on the stars.

Thank you for your consideration.

Regards

PRESS RELEASE

Whose More In Love: Cruise & Cruz or Zeta-Jones & Douglas? Body Language Expert Can Tell.

**Contact: Elaine Fuerst
770-446-7940**

For immediate release:

Atlanta, Georgia;-----Even trained actors cannot hide their true feelings from the camera. In interpreting photos of **Tom Cruise** and Penelope Cruz, Atlanta-based body language and communications expert Patti Wood, said, “their hearts are aimed at the cameras, not each other.” Patti was asked by the “National Examiner” to interpret the body language of star couples including Catherine Zeta-Jones and Michael Douglas, Cruise and Cruz, Billie Bob Thornton and Angelina Jolie. While Cruise and Cruz do not connect, Michael Douglas and Catherine Zeta-Jones are “truly having a very good time together. Their smiles are wonderfully large and real.”

Patti is often asked to evaluate politicians for various television groups. She was asked by ABC Radio News to interpret

U. S. Rep. **Gary Condit**'s interview with Connie Chung, which Patti says was “a bit unnerving since he clearly was uncomfortable, aggressive and was hiding something.”

Reuters News Agency included Patti's comments in their business travel column on how crucial a good first impression is as you do business globally. **In the column, Patti shares the origin of hand shaking, “Handshakes were created to check the weapon hand of someone you encountered on the road. Medieval knights would shake hands to dislodge any weapons hidden up sleeves; and hugs were first used by Egyptians to check for swords hidden beneath long robes.”**

Patti will be speaking on conflict resolution methods for the PBS and American Management Association web special April 24 in honor of National Administrative Professionals Weeks. Ms. Wood is a Certified Speaking Professional, a

designation bestowed on 8% of the National Speakers' Association membership. She holds a bachelor's and master's

degrees from Florida State University in interpersonal and organizational communication with emphasis on body language.

Through her company Communication Dynamics, Patti speaks at conferences and teaches Presentation Skills, Team

Building, Leadership and Success Signals in Sales. She gets rave reviews. She lives with her dog Madeline in historic

Decatur, Georgia and is completing her book on "Beyond Words: Reading the Heart Through Body Language". Visit her
